### Techniques To Enhance Your Practice And Your Bottom Line

The Michener Institute  
September 10<sup>th</sup>, 2011  
Sponsored by:

9:00 – 11:00 am  
Room 1341

#### Cutaneous and soft tissue biopsy techniques; a didactic and technical workshop

Attendees will review the various biopsy techniques that are available for sampling conditions of the skin and soft tissue. This session will include a review of the indications for various biopsy techniques to assess skin neoplasms, soft tissue tumors, dermatitides, and special testing modalities. The indications of each technique will be discussed in the context of a hands-on workshop.
